INTRODUCTION

At our reunion held at Ann Arbor in June 1919, you authorized and directed your secretary to collect data, prepare and publish a directory of the class. You did not specify exactly when this should be done, so he used his judgment. He waited for stability along printing lines, and he also feels that coming just at this time it will help sell the 1924 reunion to the class membership.

EXPLANATION

It has been a pleasure to collect and compile this information, and I am sure that it will be of great interest and much value to the individuals of the class—you will find it unusually accurate as class directories go. In fact, I believe that it is absolutely accurate.

Your knowledge of human nature has told you that no amount of pleading and pleasing and prodding will get a rise out of a certain percentage of every organization.

Concerning those who just would not reply to my repeated appeals, I secured the data through my own business organization, which covers every community in the United States and Canada, and without cost to you. The data acquired in this way is not as complete, however, as it would have been had it been obtained direct. This leads me to

COLLEGE AND CLASS SPIRIT

I am proud indeed and have always been since September 1901 that we as a class were one for Michigan and for 1904 Law. I trust that this publication will help keep the class together as a unit and aid in our pulling power for a greater Michigan.

STATISTICS

There were graduated 243 in our class. After 20 years: There are connected with the legal profession either in the active practice or in a judicial capacity—133. *= 7/8 or 66% of those known*

Engaged in occupations other than Law—64.

Deceased—29.

Unable to find out exact occupation—7.

Unable to locate—10. Of these 10 every known method was used except employing a detective.

The total number of children acknowledged is 307; 145 are boys and 162 girls.

Of the fraternal organizations Masonry leads with 95.

It is great to note the activities both in Civil and Military and Naval work.

We have studiously avoided recording unusual successes on the part of any individual.

FOURTH OR 20 YEAR REUNION, JUNE 1924

Let this be a gentle reminder, and arrange your affairs to be present.

You should inspect first hand the material and educational development of the University during the past 5 years. If you have not visited the campus during the past year, you will be greatly surprised.

Courteously yours,

E. J. HYDE, Secretary,

9435 85th Road,

January 1924.
